EUROPEAN PARLIAMENT TO INVESTIGATE UFO's?

On the 1st of December an official report was put before the European M.P's saying that people should not rule out the theory that aliens have established a base in the asteroid belt. The report, prepared by the Italian socialist MP and eminent physicist Tullio Regge, is being treated seriously by MEP's. He wants the Commission to set up a European UFO Observation centre to collect information about sightings reported by the public, the military and scientific institutions throughout the European Community.

Reference was made to the numerous sightings of triangular shaped UFO's that have appeared over Belgium and have been plotted moving at high speed on the radar screens of the Belgian air force. Mr Tullio Regge has also been impressed by the findings of the state-funded Service for Assessment of Atmospheric Re-entry Phenomena, based in Toulouse, France. This organisation has admitted that it cannot find a scientific explanation for 40% of the cases that it has investigated.

Mr Regge stated that "The lack, perhaps temporary or accidental, of an explanation, in no way allows us to regard sightings as certain proof or even an indication that aliens exist, with technological capabilities vastly superior to our own". "However scientists still have a duty to continue researching into these events". (extract from the report commissioned by the parliament's energy, research and technology committee).

News of the suggested UFO investigation was treated in a variety of ways by the British Press. The Daily Mail described it as a new idea for spending astronomical amounts of money. The Guardian made reference to the European Parliament more often being associated with building white elephants than seeing pink ones.

Britain's Euro MP's voted to fight the idea. Glyn Ford, deputy leader of the Labour Group, said "Europe has far more down-to-earth problems to deal with than this". In all fairness, this reflects the view recently expressed by Dr. John E. Mack (Harvard University), who speaking at the 5th Annual Ozark UFO Conference stated: "We have more to fear from the actions of our fellow-man than the Aliens".....(in the short term he is probably right! Ed.)

HUGE UFO'S ON THE MOVE AGAIN

As we go to press, news is coming in of a major "Flying Triangle" flap in the Essex area.

Ron West, who runs the Essex UFO Group is currently following up reports of triangle sightings all over the area during a three week period in November.

Ron will be sending us a complete report on the UFO events and to date he has confirmed that the objects are slow flying, silent, huge black triangular craft.

Sightings have usually taken place in the early hours of the morning 00.45am-0130am. This differs to our local sightings which took place around the 2130 period.

Ron West works closely with Timothy Good, who recently asked for details of the PRA reports. Timothy Good has sent copies of the PRA's Bakewell reports to Nick Pope of the M.O.D. It is Tim's intention to press the MOD for an answer on the widespread UFO "flying triangle" activity.

MANSFIELD UFO GROUP tell us that they have also had a report of a huge illuminated craft seen over the area on the night of 30th November. One witness made a sketch of the object and this, together with a full report, will be included in our next issue.

EMUFORA has been receiving good coverage of its activities, in the Nottingham Evening Post. The group, run by Tony James, meets regularly in the Bulwell Library.

In a newspaper report on the 12th November, details were given of the possible abduction of four teenagers in the Newstead Abbey area, earlier this year.

The four teenagers were in a car in the park, when they saw a large dark, triangular craft flying towards them. From then on, their recollections are hazy and confused.

The PRA has just received a video which includes an interview with one of the senior investigators of the "Hudson Valley" (USA) UFO flap which took place several years ago.

It seems that the area was inundated with UFO activity, including abductions. Once again, the black "triangles" were seen over the area for several weeks.

The video covering these events will be shown at a PRA meeting, probably in the new year. Watch future PRA programme information for final details.

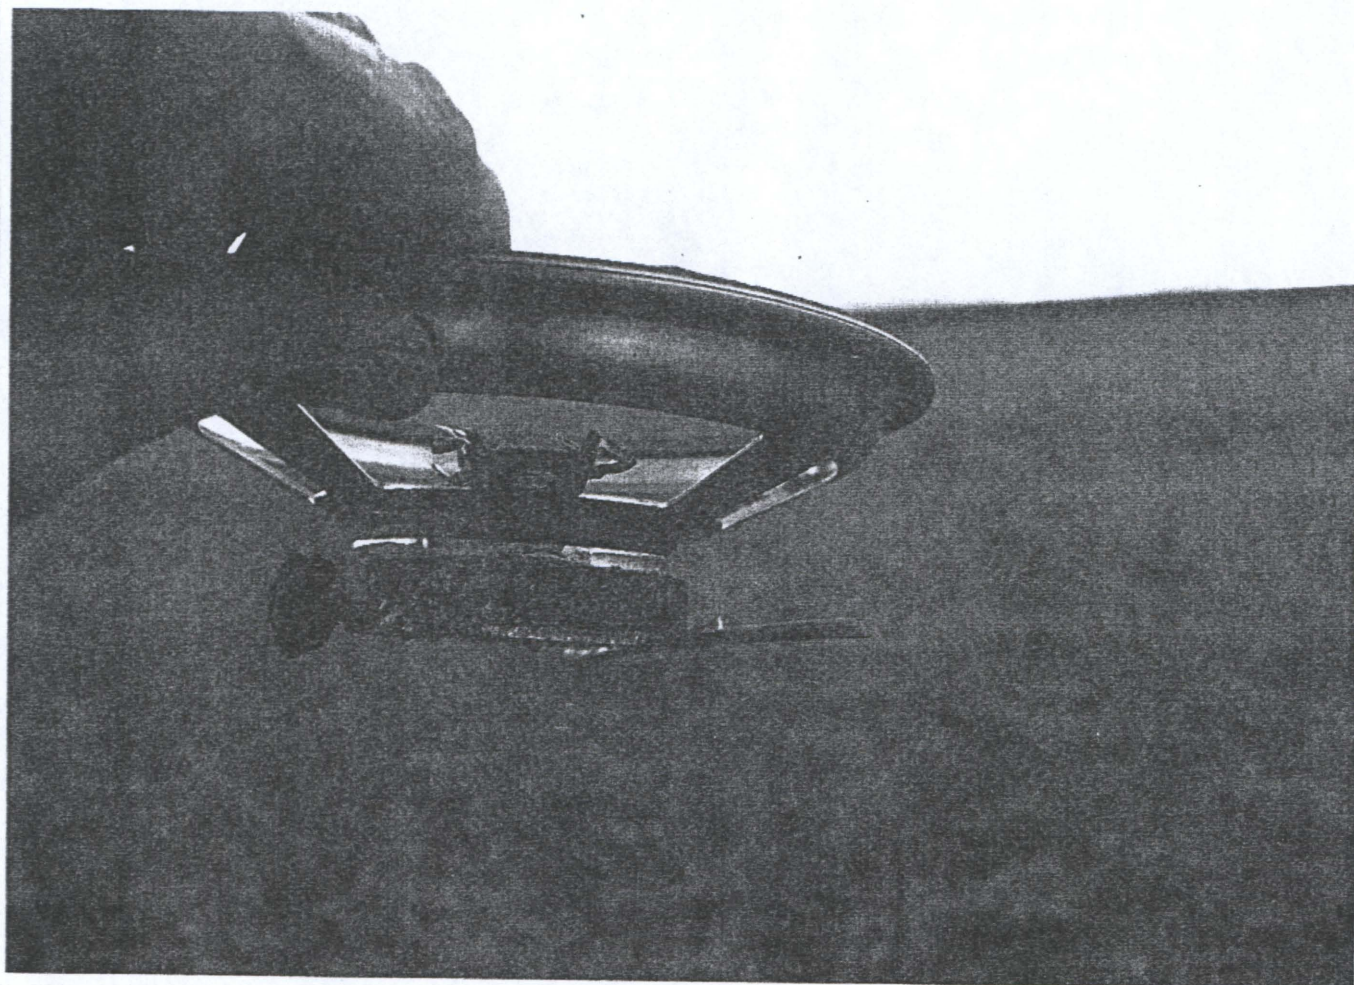

NEW REVELATION BY "BUSTY" TAYLOR: MAGNETIC WHEAT!

The audience at the last PRA meeting were treated to a big surprise, when visiting celebrity "Busty" Taylor revealed that he had found magnetised soil and wheat stems at the scene of a Crop Circle near Yatesbury Airfield, Wiltshire, earlier this year.

Busty had featured in a lively discussion programme on BBC Radio Derby, with compère Graham Knight, before speaking at the PRA meeting on the evening of December 3rd.

Busty, who has been working in liaison with a number of American scientists during the past year, has been sending various samples to the USA for analysis. On this occasion, after sending soil and crop samples from the Yatesbury Airfield Crop Circle to the scientists, he received an urgent message to return to the circle and this time to take a magnet with him.

The only magnet available happened to be part of a loudspeaker assembly, but this served the purpose and was duly passed over the ground in the circle. When the magnet was passed over the very centre of the circle, pieces of soil, stones and wheat attached themselves to the speaker magnet (see photo below).

Crop Circles Contd...

An extract from the PRA paper "Crop Circles: The Final Solution?" could explain the magnetic phenomenon found by Busty Taylor, it states:- "When reaching the earth, the energy field is likely to produce ground currents in the Crop Circle area and one would expect to find anomalies in any soil sample taken from the site. The effect of (DC) ground currents would be likely to induce magnetic and chemical changes although there may be some variation, depending upon the type of soil in the area."

(Copies of the paper are available at £4.00 plus p & p)

Mike Newark, the well known dowser from Coventry, believes that UFO's are connected with the formation of Crop Circles and that the UFO's will return over the site the following year. The Charley Knoll pattern formed about the 7th of July 93 and Mike says that he would expect to see a UFO over the same site about next July.

Mike describes the Bythorn Crop Circle pattern as a "cracker" and that there were not many genuine circles this year.

The Bythorn pattern is shown below. (photo: Busty Taylor)

CROP CIRCLE FORUM

(Reviewed by - Claire Upton)

The East Midlands branch of the CCCS hosted its first Crop Circle Forum on Saturday the 4th December at the Metro Cinema Derby.

The forum was presided over by Richard Smith who started things rolling by reading out apologies from those who were unable to attend. The venue itself was excellent and the audience were seated in comfort.

Michael Green the chairman of the CCCS and Barbara Davis Secretary were guests and the forum opened with a talk given by Karen Douglas. She spoke of the esoteric side of the circles and the synchronicities connected with them and how they worked on the unconscious to bring about changes of a metaphysical and psychic nature. She also asked the audience to close their eyes and to remember where they saw their first crop circle, be it real or a photograph in a book, and to remember what it meant to them at the time.

Following this was a coffee break and then Mark Haywood took the stage. He spoke about the formation which the East Midlands group have adopted as their own "Charley Knoll and how it occurred to him, being an amateur astronomer that it represented the constellation of Cygnus the swan. He also told of how members of the study group meditated and then drew formation shapes and how these shapes appeared in the actual formation at Loughborough.

Alison Tredwell spoke next, she had the audience attempting to feel their subtle energy fields, She spoke of the "Circlemakers" and what the circles mean to her.

Lunch followed and everyone ate well and swapped stories and photographs of the past seasons' formations.

The first speaker after lunch was Andy Thomas of the Sussex Branch of the CCCS who gave a highly entertaining talk with slides on the circles in his area of Sussex. He also spoke of their attempt to communicate with the "Circlemakers" and to catch a circle in the making on video. He showed a video of a friend of theirs who is a channeller, channelling a message from a person who calls himself Joeb, this was truly amazing even if you do not believe in the phenomena of channelling it certainly makes you think.

Next to speak was John Holman Convenor of the Yorks and Humberside Branch who spoke on how the circles seemed to have a pull on him and also about his "Campaign for Alien Acknowledgement."

Last but not least a guest from the Yorks Branch Jim Lyons was persuaded to speak and he gave an interesting talk on Quantum Physics, Euclidean Geometry and the Chaos Theory. He then lightened the talk with a demonstration of dousing for subtle energies which was highly informative.

The Forum was then closed by Richard Smith and all in all an interesting day was had by all.

CHAKRA AWARENESS GUIDE

Our thanks to Des Harrison for supplying us with the information on "chakra's" printed below. According to the supplied information, the body contains hundreds of locations where there is focused and concentrated energy. There are however seven major energy centres, commonly referred to as "chakras". (Chakra is a sanskrit word which means "wheel")

The chakras are similar to wheels, in that they are spinning vortexes of energy located within our etheric body, through which we receive, transmit and process life energies. (These are often referred to by David Icke!)

● CROWN CHAKRA

LOCATION: Top of the head
COLOR: Violet
ELEMENT: Thought/will
FUNCTIONS: Vitalizes the upper brain (cerebrum).
GLANDS/ORGANS: Pineal gland, cerebral cortex, central nervous system, right eye.
GEMS/MINERALS: Amethyst, alexandrite, diamond, sugilite, purple fluorite, quartz crystal, selenite.
FOODS: This chakra is associated with the idea of fasting; Also violet (purple) fruits and vegetables.
QUALITIES/LESSONS: Unification of the Higher Self with the human personality. Oneness with the Infinite. Spiritual will, inspiration, unity, divine wisdom and understanding. Idealism, selfless service. Perception beyond space and time. Continuity of consciousness.
NEGATIVE QUALITIES: Lack of inspiration, confusion, depression, alienation, hesitation to serve, senility.

⑤ THROAT CHAKRA

LOCATION: Throat area
COLOR: Sky blue
ELEMENT: Akasha/ether
FUNCTIONS: Speech, sound, vibration, communication.
GLANDS/ORGANS: Thyroid, parathyroid, hypothalamus, throat, mouth.
GEMS/MINERALS: Turquoise, chrysocolla, celestite, blue topaz, sodalite, lapis lazuli, aquamarine, azurite, kyanite.
FOODS: Blue/Purple fruits and vegetables.
QUALITIES/LESSONS: Power of the spoken word. True communication. Creative expression in speech, writing, and the arts. Integration, peace, truth, knowledge, wisdom, loyalty, honesty, reliability, gentleness, kindness.
NEGATIVE QUALITIES: Communication and/or speech problems. Knowledge used unwisely, ignorance, lack of discernment. Depression, thyroid problems.

③ SOLAR PLEXUS CHAKRA

LOCATION: Above the navel, below the chest
COLOR: Yellow
ELEMENT: Fire
FUNCTIONS: Vitalizes the sympathetic nervous system. Digestive processes, metabolism, emotions.
GLANDS/ORGANS: Pancreas, adrenals, stomach, liver, gallbladder, nervous system, muscles.
GEMS/MINERALS: Citrine, gold topaz, amber, tiger eye, gold calcite, gold.
FOODS: Starches. Yellow fruits and vegetables.
QUALITIES/LESSONS: Will, personal power, authority, energy, mastery of desire, self-control. Radiance, warmth, awakening, transformation, humor, laughter, immortality.
NEGATIVE QUALITIES: Taking in more than one can assimilate and utilize. Too much emphasis on power and/or recognition. Anger, fear, hate. Digestive problems.

① ROOT or BASE CHAKRA

LOCATION: Base of the spine (coccyx)
COLOR: Red (secondary color is black)
ELEMENT: Earth
FUNCTIONS: Gives vitality to the physical body. Life-force, survival, self-preservation, instincts.
GLANDS/ORGANS: Adrenals, kidneys, spinal column, colon, legs, bones.
GEMS/MINERALS: Ruby, garnet, bloodstone, red jasper, black tourmaline, obsidian, smoky quartz.
FOODS: Proteins (meat and dairy products not recommended). Red fruits and vegetables.
QUALITIES/LESSONS: Matters relating to the material world, success. The physical body, mastery of the body. Grounding, individuality, stability, security, stillness, health, courage, patience.
NEGATIVE QUALITIES: Self-centered, insecurity, violence, greed, anger. Overly concerned with one's physical survival. Tension in the spine, constipation.

● BROW CHAKRA (Third Eye)

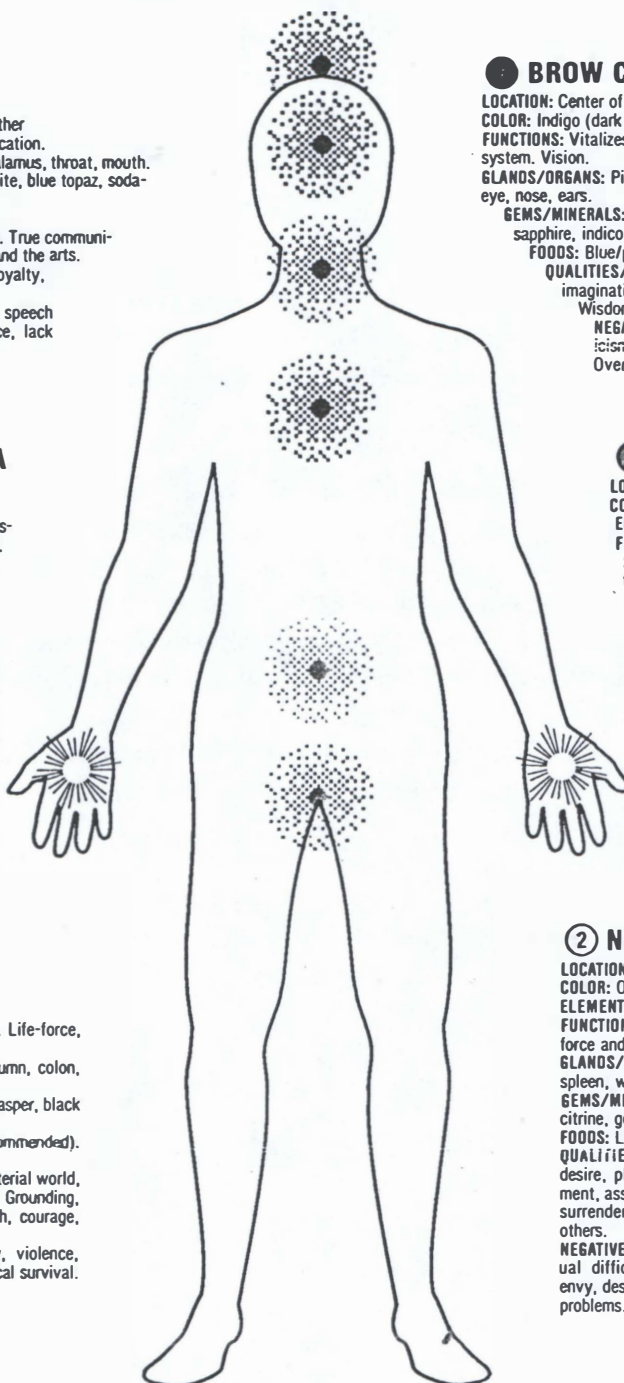

LOCATION: Center of the forehead, between the eyebrows
COLOR: Indigo (dark blue)
ELEMENT: Light
FUNCTIONS: Vitalizes the lower brain (cerebellum) and central nervous system. Vision.
GLANDS/ORGANS: Pituitary gland (some sources say pineal gland), left eye, nose, ears.
GEMS/MINERALS: Lapis lazuli, azurite, sodalite, quartz crystal, sapphire, indicolite tourmaline.
FOODS: Blue/purple fruits and vegetables.
QUALITIES/LESSONS: Soul realization, intuition, insight, imagination. Clairvoyance, concentration, peace of mind. Wisdom, devotion, perception beyond duality.
NEGATIVE QUALITIES: Lack of concentration, fear, cynicism, tension. Headaches, eye problems, bad dreams. Overly detached from the world.

④ HEART CHAKRA

LOCATION: Center of the chest
COLOR: Green (secondary color is pink)
ELEMENT: Air
FUNCTIONS: Anchors the life-force from the Higher Self. Energizes the blood and physical body with the life-force. Blood circulation.
GLANDS/ORGANS: Heart, thymus gland, circulatory system, arms, hands, lungs.
GEMS/MINERALS: Emerald, green and pink tourmaline, malachite, green jade, green aventurine, chrysoprase, kunzite, rose quartz, ruby.
FOODS: Green fruits and vegetables.
QUALITIES/LESSONS: Divine/unconditional love. Forgiveness, compassion, understanding, balance, group consciousness, oneness with life. Acceptance, peace, openness, harmony, contentment.
NEGATIVE QUALITIES: Repression of love, emotional instability, out of balance. Heart problems, circulation problems.

② NAVEL CHAKRA (Sacral Plexus)

LOCATION: Lower abdomen to navel area
COLOR: Orange
ELEMENT: Water
FUNCTIONS: Procreation, assimilation of food, physical force and vitality, sexuality.
GLANDS/ORGANS: Ovaries, testicles, prostate, genitals, spleen, womb, bladder.
GEMS/MINERALS: Carnelian, coral, gold calcite, amber, citrine, gold topaz, peach aventurine.
FOODS: Liquids. Orange fruits and vegetables.
QUALITIES/LESSONS: Giving and receiving, emotions, desire, pleasure, sexual/passionate love, change, movement, assimilation of new ideas. Health, family, tolerance, surrender. Working harmoniously and creatively with others.
NEGATIVE QUALITIES: Over-indulgence in food or sex. Sexual difficulties. Confusion, purposelessness. Jealousy, envy, desire to possess. Impotence, uterine and/or bladder problems.

* There are also powerful energy centers in the palm of each hand and on the sole of each foot.

TALE ENDERS

AREA 51 is being increased in size, according to a usually reliable source. It is believed that the planned increase will take in areas that have previously used as vantage points by UFO investigators using long range camera equipment.

BUFORA are now sending us their "UFO newsfile" on an exchange basis. (available to members by request).

THUNDER BAY, ONTARIO, CANADA is the home of one of our latest contacts. Dennis Roddy writes:- "I was pleased to read your article in the September 93 issue of 'The Circular', in which you suggest microwaves as a possible mechanism for some of the 'Circles Phenomenon'. In a letter published in the March issue, I pointed out some of the effects that could be produced by microwaves. They may lend support to your theories."

(The first PRA paper on the microwave theory was published in Sept. 91 Ed.)

"THE CIRCULAR" (CCCS magazine) may cease further publication after this December's issue, which will carry the final part of the PRA paper. (according to information received at our newsdesk.)

MOSCOW may be our next source of exchange information, including video's! With the present situation it seems likely that the planned project will go ahead. It's just a little different to a few years ago, when UFO enquiries from behind the Iron Curtain were more likely to be from the KGB trying to find out what was flying around in our skies!

RAELIAN MOVEMENT are holding their convention this month from 11th-13th in Clermont Ferrand, France. The venue is advertised as holding parties, entertainment and a look at the history of the movement. There is also a "transmission" ceremony on the Lassolas volcano, which is the exact spot where the first "contact" took place (?). (This organisation are planning to build an "embassy" in the region of Israel, not the quietest spot on Earth to welcome the Extra-Terrestrials...Ed.)

A HAPPY XMAS & NEW YEAR TO ALL OUR READERS.....There will be no meeting this month. The next one will probably be in the new year, depending on the weather.

FINALLY watch out for the return of a strange moving bright light in the sky later this month! According to the Christians, it should arrive about the 25th, but the original date was nearer October. (The date was changed by the church to coincide with an existing pagan mid-winter festival).

WATCH OUT FOR THE MAN IN RED who may appear in your bedroom late at night on the 24th December. You have been warned!
