An Increase In Encounters Of The "Psychic Kind"

In our study of the UFO phenomenon we must consider all avenues of investigation. While we consider the 'nuts & bolts' UFO cases to be of primary interest, it is becoming increasingly obvious that by assessing the subject in our own restricted dimension we are in danger of taking a blinkered view of the subject. It appears highly probable that UFO's and their occupants are capable of moving through other dimensions.

During the past month, four different instances have occurred where I have been contacted by people with psychic abilities, the most prominent being Peter Gregory of Mablethorpe, Lincs. This months leading article features Peter and relates some of his experiences.

"IN OUR UNIVERSE THERE ARE INFINITE PERCEPTIONS OF REALITY, YET MAN IS CAPABLE OF UNDERSTANDING ONLY ONE. IF HE IS TO ENDURE, HE MUST LEARN TO EXPAND HIS ACCEPTANCE OF THIS SIMPLE UNIVERSAL TRUTH. ONLY THEN WILL HE BE ABLE TO FULLY COMPREHEND OUR PURPOSE IN HIS CREATION."

The Visitors June 1994

The above message came to me via Peter Gregory, a writer and a person who claims to have had contact with an alien intelligence. Peter who has wide psychic abilities, came to my notice through a number of "Flying Triangle" reports emanating from the East Coast area of Lincolnshire. After making a few enquiries, I was able to contact Peter and arrange a meeting at his home in Mablethorpe. I made the 200 mile journey to hear at first hand, details of the strange events that had occurred. A short resume follows:-

On the night of the 21st June 1993, during the UFO "flap" in Lincolnshire, Peter woke in the early hours of the morning to see a glowing UFO. He grabbed his video camcorder and managed to film a short sequence before the object shot off at terrific speed. As the result of his experience, the story received wide publicity in the national press. Shortly afterwards Peter was visited by two persons claiming to be members of the "Grimsby UFO Group" and they subsequently asked if they could borrow the video.....Peter gave them the video and neither they or the video has been since! Luckily Peter had taken two photographs of the object from the tv screen and one of them is reproduced in this issue.

Because of the sensational nature of the revelations made by Peter Gregory, I had decided to take a video camera along and to record the interview. This is something that I have never done in the past, but I considered the meeting important enough to warrant a video record.

Our meeting had been arranged for Thursday 9th June and I duly arrived at the appointed time. Peter beckoned me into his office and I sat down. I had left the video camera in my car outside the house, with a view to broaching the subject during our conversation. After our introductions had taken place (my wife Deana accompanied me), Peter handed me a piece of paper...(the 'message' which he had typed the day before, has been reproduced below).

Wednesday 8th June 1994.

Sometime during your conversation with Mr Fowler he will ask you if you mind appearing on video. Please decline, the time is not yet right for everyone to understand our purpose.

I was a little taken aback at the message, but bearing in mind that Peter had possessed psychic powers for a number of years I was not too surprised. Our discussion continued, but being recorded on audio tape only.

(The report has been edited because of page restrictions).

'They Showed Me The End Of The World-In The Year 3600'

After retiring early to bed on the night of April 17th 1993, I soon fell into a deep sleep. Sometime later my vision began: I was inside what appears to be a control room of some sort, in an enormous flying machine. I know we are in flight because I can feel the movement beneath my feet, it is accompanied by a loud humming sound coming from somewhere far below me.

About fifteen feet in front of me I can see three human figures, they are standing by a large viewing monitor, watching a transmission of some description. They appear to be totally unaware of my presence. I am strangely drawn towards them as if in some way there is a special bond between us, but I don't quite know what it is.

I suddenly feel the urgent need to communicate with them somehow, there are so many questions I wanted to ask, so much I wanted to say. I stretched out my hand to touch one of them but it was useless, my hand just passed straight through him. (similarities here to the Rendlesham Forest aliens. Ed.)

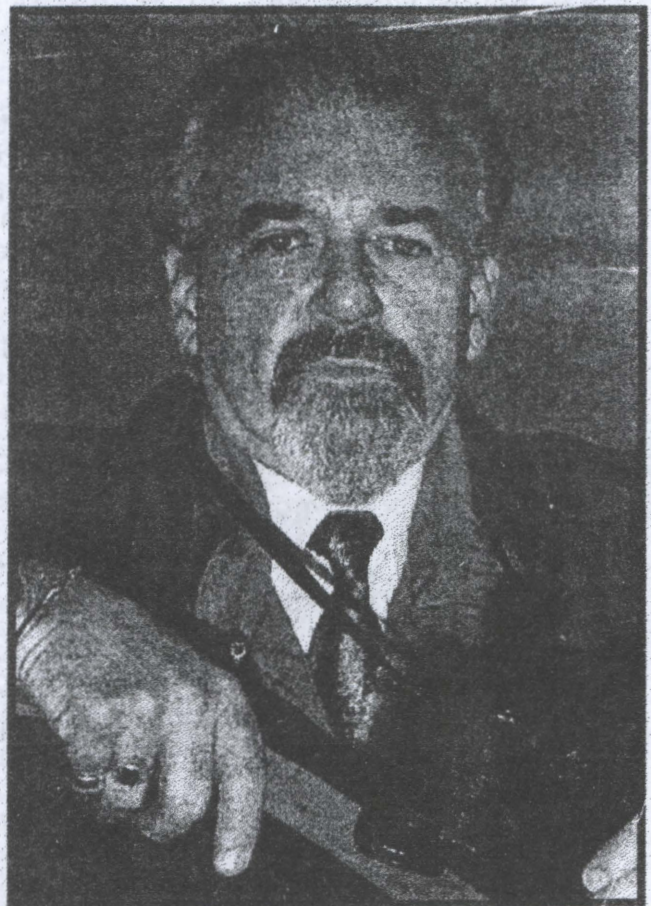

The viewing screen buzzed into life again. At the top of the viewer there is a screen display with the words "Year 3600".

I watch fascinated as the report of some great disaster unfolds before my eyes. A voice comes from somewhere within the room, it is describing some of the scenes that I am seeing. The Earth is no longer inhabitable, humans cannot survive on the surface. The air is unbreathable and pollution is so great that man has been forced to live underground in a vast artificial world. The sun still shines but only through a thick blanket of air pollution. The ozone layer has been destroyed and there is no protection from the ultraviolet radiation. Nothing moves in the Earth's rivers and oceans, they are lifeless foul smelling swamps, no longer capable of sustaining the life that was abundant within their depths two thousand years ago. All the Earth's known animals and birds are extinct, the first casualties in a long line stretching back as far as the beginning of the end - 2096.

Because of the long term effects of carbon dioxide and many other environmentally harmful pollutants on the atmosphere in 2540 the great polar ice caps melted. Many coastal cities and towns throughout the world were destroyed and millions of people perished. Where there had been land there was now sea, where there had been life now only silence.

Now in the year of 3600, no evidence of the once green and fertile land survives. There is only a dark brown landscape with no signs of life or habitation, only piles of rubble remain to litter the surface, the only epitaph to mans occupation of the planet Earth. His greed and stupidity had erased the greatest civilisation that their world had ever known.

I stood there, I can remember thinking this bleak and desolate place cannot be our Earth, yet I knew it was and I was seized with an overwhelming sense of panic and fear for its future. At this point I became fully awake, I knew that the tragedy I had seen was very real. The memory of it would remain with me for the rest of my life.

SAUCER JOURNEY: Peter saw the end of the world

Peter Gregory: contd.

A Night Visitor

On the twenty first of June 1993, I had what I believe to be a very real and physical encounter of the 'first kind'. I had been in bed asleep for just under four hours when I was suddenly awakened by a very bright light filtering through the open window. The light was so strong that I could see it's reflection clearly on the bedroom wall. I sat up and moved the net curtains to get a better view of the object that had so forcibly attracted my attention. The sight that met my eyes was truly unbelievable, not in all my visions and dreams had I seen anything so extremely beautiful as this.

It hung motionless in the night sky high above the roof tops of the houses opposite. A glorious red glowing object, at it's centre a mass of shimmering yellow light. It hovered silently in the grey black summer sky, the light in the middle gently undulating, changing from yellow to gold and back to yellow again. It's whole appearance gave me the impression that it was some wonderful living creature, but not from our world.

There was no definite outline to it, I'm sure it wasn't solid as such, not as we understand the term anyway. As far as I could tell it was between twenty to thirty feet in length and although there was no sound at all during the sighting, I could feel a very powerful vibration pulsing through my head and body all the time.

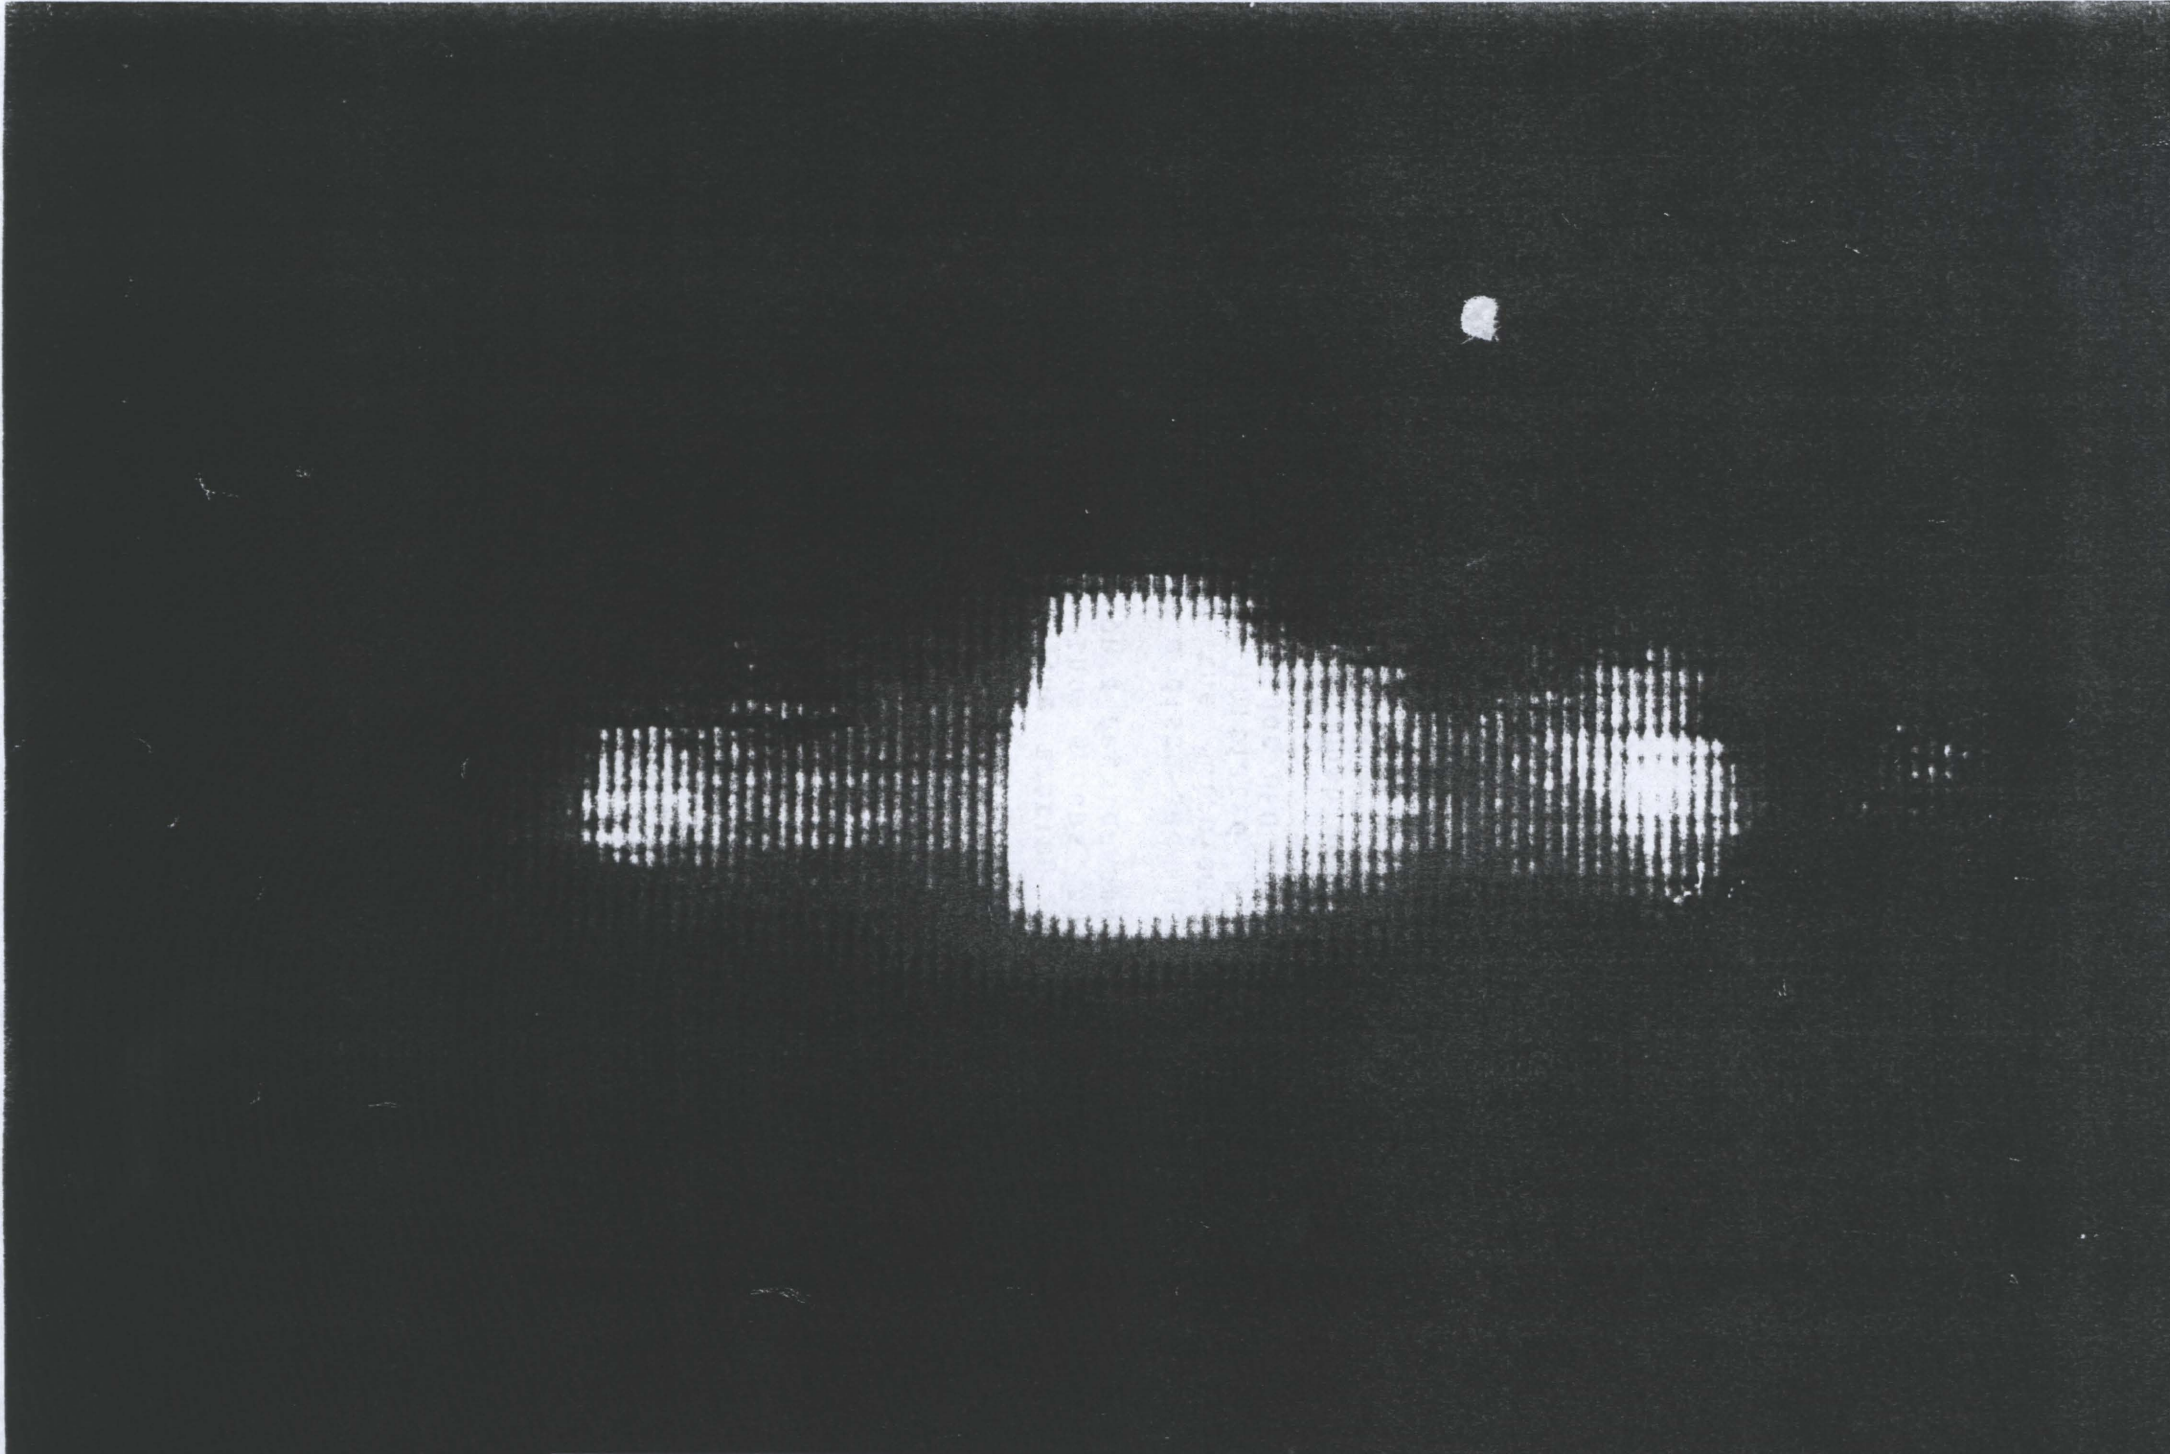

After getting over the initial shock of seeing such an unearthly visitor, I remembered my camcorder which was in a cabinet by the bed. Hardly able to contain my excitement I quickly grabbed the camera and switched it on. Pointing it towards the sky, I started videoing the object through a gap in the open window. I was shaking so much it was almost impossible to hold the camera steady. Then after about only four seconds, the visitor suddenly and without warning, shot off at terrific speed northwards, leaving a trail of white light behind it. Within two seconds it had disappeared out of sight completely.

The time was now 2.47am, only some two minutes had elapsed since the beginning of the encounter, but it seemed much longer. It was just as though time itself had stretched out and my consciousness with it.

I spent the rest of the night awake, trying to put what I had seen into some perspective but it was useless, my mind couldn't or wouldn't comprehend or accept what it had witnessed.

P.G.

(A still photograph from the video sequence is produced on the following page.)

A 'still' from Peter Gregory's Video 21st June 1993

THE CROP CIRCLES SCENE

Crop circles and pictograms are continuing to appear in Southern England. These events are occurring mainly in oilseed rape, which in view of the changes in agriculture brought about by the EEC, is not surprising.

Our thanks to Claire Upton, PRA and CCCS member, for supplying the photographs shown on the opposite page.

COMBINED EAST MIDLANDS MEETING

A meeting of East Midlands UFO and Crop Circle groups took place in the Aspley Library, Nottingham on the evening of 17th June.

The meeting chaired by Alison Tredwell (CCCS & CSETI) included members from the following groups:-

CCCS East Midlands, Phenomenon Research Association (PRA), East Midlands UFO Research Association (EMUFORA), Mansfield UFO Group (MUFORG)*, Alien Acknowledgement Campaign (AAC), Centre for Study of Extraterrestrial Intelligence (CSETI-Northern England).

The primary purpose of the meeting was to improve lines of communication between the groups and to examine ways of exchanging information on a regular basis.

A number of projects were discussed including "Project Sky" (an exercise in contacting the 'Circlemakers'), a 'National UFO Day', which is being initiated by John Holman and the possibility of holding a major UFO conference in Nottingham.

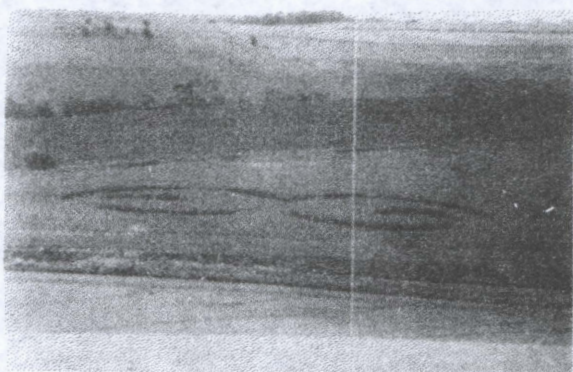

The "Crop Circle" field at Husbands Bosworth (Leics.) has no crop this year but is "set aside". Apparently there is a large pile of manure at the top of the hill, where the circle normally forms, this prompted a remark enquiring if this meant that future Crop Circles in the field would be bigger!

On a more serious note, a document called the "Roswell Declaration" is being circulated to various UFO groups. It has been instigated by three groups in the USA: Mutual UFO Network (MUFON), Center for UFO Studies (CUFOS) and the Fund for UFO Research (FUFOR).

It is intended to launch a world-wide campaign which will culminate in a "Roswell Declaration" presentation to all members of the American Congress on a yet-to-be-determined day later this year. Copies of this document will be made available to PRA members at the next meeting.

* We understand that Les Trueman has been voted off the Mansfield UFO Group Committee and no longer represents MUFORG.

RECENT UFO REPORTS

Event Date: 20-4-94

Case 94/6

Investigator: Tony French

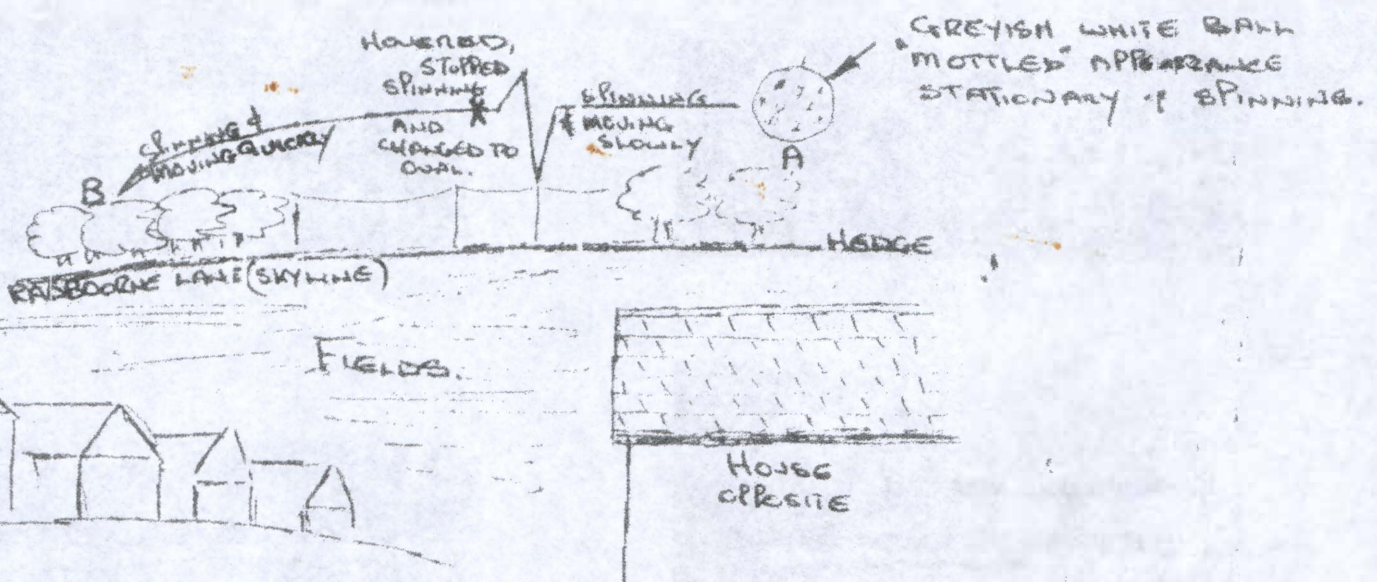

Whilst travelling home late on 20/4/94 at just before midnight Mrs A stopped her car at a crossroads near to Sutton Bonnington, (calm & clear night) Mrs A was startled at the sight of an object which appeared to hover a few feet above the ground behind a tree ahead and slightly left, two very bright lights were visible...red on the left and green on the right, after pausing for a few moments and thinking something was wrong she drove on passing the object on the left, now visible were two intensely bright white spot lights scanning around as if looking for something Mrs A had the car radio and heard nothing unusual. As she looked back at the object it flew off at tremendous speed in the opposite direction to her car, driving on for a further 4 or 5 minutes she approached the village of West Leake, the object (or another similar) was in front of her, this time toward the right, again behind a tree but near a church this time. Not wishing to drive past this thing she drove her car left off the road into a courtyard and switched everything off, released the seatbelt and got ready to run, Mrs A waited just a few minutes before being aware that the object had moved to a position above and behind the car, suddenly the spot lights were scanning around again but not at her, no noise was noticed at this point. A few moments later a very loud roar and whooshing sound was heard as the object shot away at great speed and went out of sight.

Event Date: 5-5-94

Case 94/5

Investigator: Alan Hitchcock

At approx. 9.30am Mrs V. Hallsworth looked out of her front bedroom window at her home in Micklegate, Derby and noticed a greyish/white spinning ball manoeuvring across the sky (see sketch).

SKETCH OF VIEW FROM MRS HALLSWORTH'S BEDROOM WINDOW, INDICATING THE FLIGHT PATH OF THE BALL. IT WAS VIEWED FOR 3-4 MINUTES BY HER AND HER DAUGHTER. SHE IS CONVINCED IT WAS NOT A HOT-AIR BALLOON OR HELICOPTER.

THE EVENING SKY

July 1994

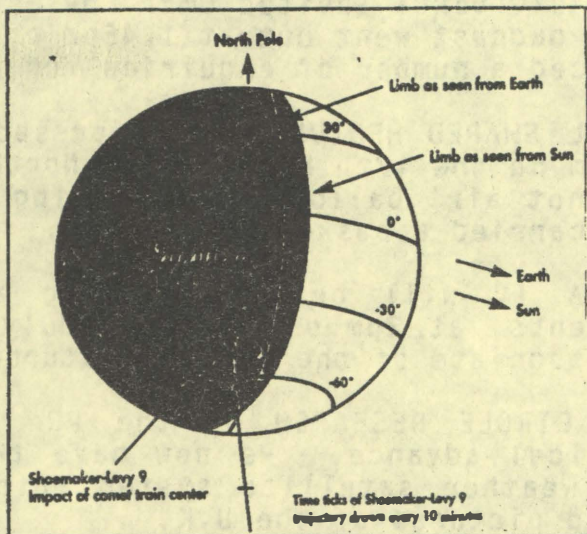

An awesome display of collisional power never before witnessed in the solar system will take place between July 16th and July 20th. Explosive energy equivalent to 500 billion tons of TNT will be delivered when comet Shoemaker/Levy 9 makes a big splash into the high cloud tops of the giant planet Jupiter.

In July 1992 the comet skirted a mere 12,000 miles above the giant's atmosphere. Jupiter ripped the comet asunder through the sheer power of gravity. The twenty or so fragmented pieces of comet spewed illuminated dust and gas into space, permitting its discovery.

Unfortunately the impact site will be facing away from Earth when the kamikaze comet strikes. However, because Jupiter has a fast axial spin (one Jovian day is under ten Earth hours) the site will come into Earth view ten minutes later.

The world's telescopes will be directed at the target site and the silhouetted eruptions of gas and dust from the explosions will be visible to us in Jupiter's advancing dawn. The impacts themselves will be monitored from space by the Galileo, Voyager 2 and Ulysses spacecraft. Each collision will trigger a series of events that will unfold in the minutes, hours and days that follow.

Jupiter is clearly visible in the sky throughout July. Face west, the direction where the Sun sets, look to your left and you will see the brightest 'star' in the sky, Jupiter.

Planetary impact collisions are not uncommon on the cosmic time scale. One has only to look at the Moon to see thousands of impact crater sites. The latest near-Earth miss occurred this year on March 15th when an asteroid over 120 feet across hurtled past us at a third the distance of the Moon. Do not be fooled into thinking this event insignificant. Had the asteroid passed the Earth a couple of hours earlier, 'whoosh!' - a city the size of London may have been vaporised.

Mars and Mercury are both visible in the east before and at dawn. The Earth will be furthest from the Sun (almost 94 million miles) at 8pm on Tuesday July 5th. Strange how it is summer and yet we are furthest from the Sun!

Twenty five years ago this month, humankind first stepped foot on the Moon. The Apollo lunar landings were a great adventure never since equalled in human space exploration. Let us hope it will not take another twenty five years to reach the planet Mars. We have the technology but alas we do not appear to possess the will, such a vital ingredient of the human spirit.

Enjoy Your Evening Sky!

Barry Parkinson
Milton Keynes College

TALE ENDERS

BBC RADIO DERBY invited Omar Fowler to give a talk on "Aliens". The broadcast went out at 1.45pm on 6th June. This subsequently produced a number of enquiries for the PRA.

A BALL SHAPED HELIUM BALLOON passed over Spondon (Nr Derby) at 8.40am on the 12th May heading North. It differed greatly from the 'hot air' balloon shape, being round and silvery/white. It also carried a basket underneath.

ANGLIA TV will be broadcasting a programme on 'contactee' incidents, at 2pm on the 22nd July. Terry Walters, a psychic and associate of the PRA is featured in the programme.

CROP CIRCLE RESEARCH by the PRA will be assisted by a new technical advance. We now have the ability to tune into the NOAA weather satellite system which produces constant air to ground pictures of the U.K.

WARMINSTER "THING" won't lie down. Gordon Faulkner's photograph (see the May OVNI) is a fake claims Roger Hooton, now living in Adelaide. In the "Warminster Journal" of 29th April this year, he explains in great detail his part in the hoax. His knowledge of the Warminster area and the situation at the time is extensive and his version of events seems quite plausible. (Thanks to Steve Gerrard of SUFOG for the news cutting)

PRA SPREADS IT'S WINGS...We are currently exchanging information with the following groups: CCCS (East Midlands), CCCS Yorks & Humberside, EMUFORA (East Midlands), Mansfield UFO Group, UFO Skywatch (Lincs.), BUFORA, Essex UFO Group, SIGAP (Surrey), SPIR (Scotland), SUFOG (Southampton), TUFORG (Torquay), NUFON (Northern UFO Network), IUFOPR (Ireland), AUFO (Sweden), JSPS (Japan), Pacific Research (Canada), NEXUS (Australia), MUFON (USA), plus National & International consultants. We also represent and carry out investigations on behalf of the "Flying Saucer Review" magazine.

NEXT MEETING

Will take place at the STANLEY CLUB, Stanley Common (A609)
nr. Ilkeston, at 8pm on THURSDAY 23rd JUNE

Guest Speaker: Gordon Moore (Society For Psychical Research)

"PRECOGNITION"

plus

"UFO's IN LINCOLNSHIRE"

An excellent new video produced by Peter Gregory

(Non-members welcome: Admission for the evening £1)
