### SENSATIONAL 'FLYING TRIANGLE' EVENTS HAPPENING ALL OVER U.K.

After the launch of your editor's 'Flying Triangle Mystery' booklet, the UFO press, particularly 'UFO Magazine' (July/August issue), gave it an excellent reception. As a result of these comments, a reasonable demand for the booklet was expected. *(This in fact happened and the booklet is selling well).*

What was not anticipated, was the fact that many people who ordered the FT Mystery book, were themselves witnesses of this mysterious craft! As a result of this, we are now urgently pursuing promised photographs and new video footage!

One such event is that described by Mr Thornewell, a New Zealander who is currently seeing the sights of the 'old country'. On the 14th of April this year, Mr Thornewell decided to visit the 'longest pier in the world' at Southend.

It was about 12.30pm when the family group stood on the beach and gazed at the pier. Mr Thornewell decided to take a few snapshots of the pier as a memento. At the time, they were unaware that they were visiting one of the 'FT hotspots' and they did not notice anything unusual in the sky. However on receipt of his colour prints, a few days later, Mr Thornewell noticed what appeared to be a 'Flying Triangle' over the small boat adjacent to the jetty. The image of the object is blurred and distant. It was a dull day and the automatic camera (using Agfa 200ASA film) would have set a slow shutter speed. However, there is something there and it has a triangular shape! *(The photo is reproduced below in black & white).*

## THE TRIANGLE STORY CONTINUES...

Our next report was received from a Mr J.D.Sherbourne in Chelston, Somerset.

"There was a close sighting of one of these craft down here a couple of months ago. It glided directly over two teenage boys who were fishing in a pond about two miles away from here. It seems they cut their fishing lines and sped off on their bikes. This was all reported in the local newspaper, but unfortunately I no longer have a copy."

"Two shift workers with whom I used to be acquainted, also independently saw an area of 'blacker' darkness in a field off the M5 motorway, as they were heading home to Bridgewater. Twenty four hours later, they passed the same spot. The dense black area had gone, but there was military helicopter activity going on!"

*(We have requested further information, in order to follow up these incidents.)*

The next report is from Mr Carr of Paulton near Bristol (Mr Carr has taken FT video).

Mr Carr telephoned to say that on 1 April this year at 10.30pm, he had been out in his back garden looking around in the night sky. Apparently there had been 'glowing ball' activity on the area a few nights previously and Mr Carr had decided to try and video this activity, however something completely different caught his attention.

"I heard this droning noise in the distance, it was something between an electric motor and a vacuum cleaner. I went indoors and fetched my video camera and then I saw this triangular pattern of lights coming towards me. There were three white lights on each corner and in a central position, but a little to one side, there was a central beam of light shining down. The beam was very bright close to the craft, but faded a little as it reached the ground. I ran my video camera as it came towards me, it passed overhead and then banked away. It was flying 'flat side' forwards."

*(Mr Carr intends to have the video film enhanced, but we have advised him not to lose sight of the original. We have also requested a copy of the video a.s.a.p.)*

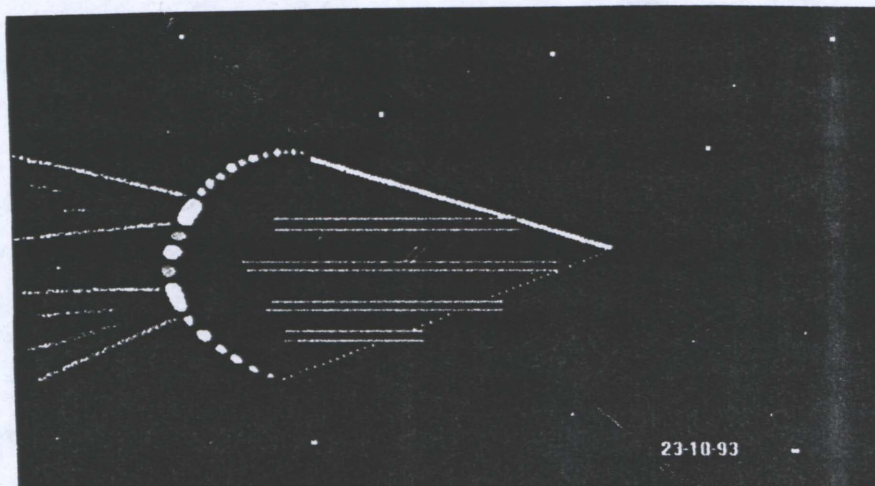

The next report comes from Mr Chris Harris of the B.E.A.M.S. group in Birmingham.

On the 22 January this year, a Flying Triangle hovered over both carriageways of the M5 motorway. A member of the B.E.A.M.S. group actually drove under it at 11.45pm.

He noticed what appeared to be four-square shaped pods on one edge of the FT as well as pipework or ducting leading to its centre\*. It had the usual white lights, two at each point and one large light in the centre.

One other thing my friend noticed was that the pipework or ducting appeared twisted. Whether this was because the triangle was 'shimmering' or because the metal was twisted, we don't know.

*(Chris Harris has promised to send us further information shortly.)*

An extract from the  
'Flying Triangle Mystery'  
booklet by Omar Fowler.

Two witnesses were travelling in a car near Longford, Derbyshire at 9.30pm on 23rd October 1993. They noticed a bright light in the sky, within a split second a 'Flying Triangle' appeared right next to them. A structure of some kind was visible underneath and the craft was observed for approx. ten minutes.

## STAFFORDSHIRE UFO GROUP HOLD AN EVENING WITH DON BERLINER.

Members of the PRA visited their colleagues 'down the road' at Rugeley on the night of the 21st June. The occasion was the visit of American UFO researcher and Aviation Journalist, Don Berliner to a meeting held by the Staffordshire UFO Group. Top marks to Irene Bott for organising a very interesting meeting.

Don Berliner gave a talk on his activities and his work on the committee funding financial backing for UFO research. He spoke of the projects that were in hand, such as the investigation of abductees and a number of the subjects that were still in need of further investigation, for example 'the men in black'.

Referring to abductee incidents, Don gave details of a family who had suffered alien visitations over a number of years (multi-generational visitations). He told how the elderly parents of the family remembered being abducted and how the present family were also suffering the same fate. *Now the children were beginning to talk of their nightly visitors* and were drawing 'little men' pictures that were all too familiar to their parents.

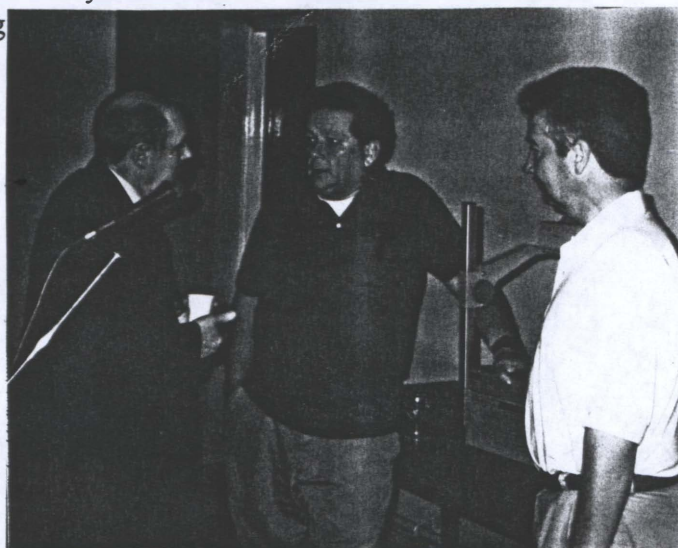

Don spoke of his reluctance to use hypnotic regression, because of the many pitfalls it can produce. In many cases the abductee had been able to recall fleeting glimpses of what had taken place while they had been on the alien craft. How in one case, a woman had been given instruction on controlling an alien craft. The woman concerned had apparently drawn sketches of the craft's interior and Don's group of researchers were in the process of building an alien craft 'mock-up' based on the abductees information.. He said that they were waiting with interest to see what would happen when the woman was shown the imitation of the alien craft interior.

Don's description of *odd happenings* confirmed what previous researchers have already discovered. Gordon Creighton, the editor of Flying Saucer Review, recently wrote a light hearted article on such strange findings as: abductees being returned to their beds with their night-dress on back to front, odd socks on their feet and in one case, being returned with the wrong knickers on! Don spoke of one particular subject discovering that her earrings (a round type with a pattern on one side) had been replaced with the plain side, instead of the decorative side showing. What the purpose of all this alien activity is, we just do not know. "It hasn't told us a lot" said Don.

The more disturbing revelations have also been heard before. The case of women abductees suffering short-term pregnancies was mentioned by Don Berliner, together with the '*skinny offspring*' later presented to the female abductee 'mothers'. The well known American researchers Dr. David M. Jacob's first revealed these startling claims in his book 'Secret Life'. Members of the PRA who met Dr. David Jacobs during his Manchester University talk in November 1992, were able to discuss these and many other facets of the abduction scenario.

The indications are, that *they* are using us to breed a **hybrid alien/human**, but for what purpose. They may be following our progress in slowly (*or not so slowly*) destroying the environment of the planet, which will subsequently lead to our demise. Will they then re-populate the Earth with their own hybrid species?

# The Evening Sky

## July 1996

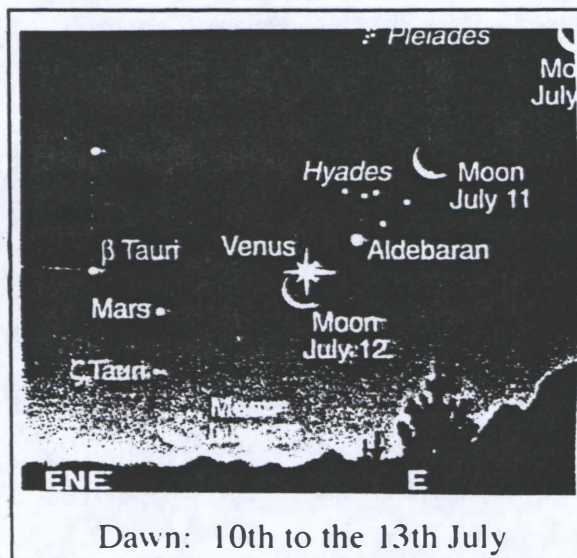

The Earth is at its most distant from the Sun on July 4th at over 94.5 million miles (we call it: aphelion). Strange, that we are over 3 million miles farther away from the Sun at the height of summer than we are in the middle of winter.

Look towards the southeastern sky as evening twilight fades and you will see a bright 'star'. This is the planet Jupiter, suspended in the constellation of Sagittarius. As the night darkens, and Jupiter travels across the sky, you may notice a hazy cloud of light close by Jupiter stretching across the heavens. The fuzzy light is the Milky Way: the centre of our galaxy.

Billions of stars and possibly a super-massive Black Hole reside within the Milky Way at a distance of 30 thousand light years from Earth. Remember, one light year is equal to 6 million million miles which is the distance light travels in one Earth year.

If we were to travel non-stop on Concorde to the Milky Way it would take over 17 thousand, million years to reach our destination. The galaxy is a big place and our address in it, most insignificant. We reside on a small planet which orbits a dim star located near the edge of an outer spiral arm. Unimpressive as this may be, the real miracle is that we are able to know and contemplate our address at all.

Set your alarm clock early on July 12. A waning crescent Moon passes close to the planet Venus: a breathtaking sight. It is well worth getting out of your cosy bed to witness this 'conjunction'.

(Venus will be 32 million miles distance and the Moon 230 thousand miles distance from Earth.)

Later in the month, Saturn will be visible in the eastern sky rising around midnight. Interestingly, Saturn is currently outside the Zodiac and in the sign of Cetus. What will 12 sign Zodiac astrologers make of this! (Saturn is currently 874 million miles distance from Earth.)

Because of the late start to summer there are not too many creepy crawlies around. Many migrating birds stayed late and gobbled up lots of creepies, especially snails. However, if you are out for long periods at night in summer an insect repellent may still be useful.

My garden faces due west and I have, throughout June spent many evenings out on the patio watching the twilight colours change as the Sun sets. It is a wonderful sight which leaves me awe-struck, no matter how many times I behold the spectacle. The sky, the Earth you and I are quite extraordinary and it feels simply great to be alive!

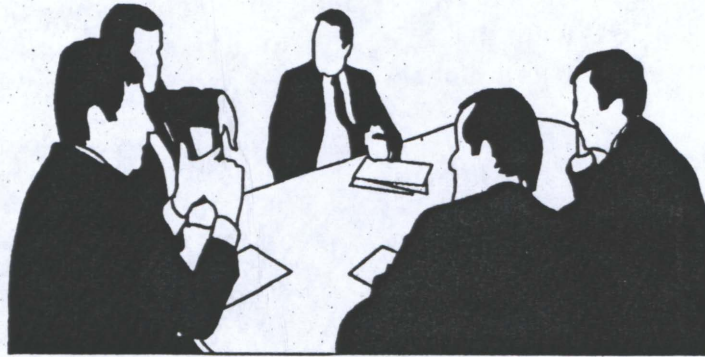

*Enjoy Your Evening Sky!*

## MJ 12 ON THE PARAMOUNT CHANNEL

This article was taken from page 737 on the Paramount channel on Sky TV telex., on May 27th 1996. Entitled, 48hours - MJ12 and beyond, by Agent X

It is common knowledge what occurred in Roswell 1947, and there are some who know that not one UFO crashed but two, one of which had a survivor. There are some who are aware that a US Government committee called Majestic 12 was set up soon after, but only a handful of people know that since then there have been many numerous UFO crashes which MJ12 have succeeded in covering up.

Amongst them are - Paradise Valley, Arizona 1947. Aztec, New Mexico 1948. Kingman, Arizona 1953. New Mexico 1963. Kecksburg, Pennsylvania 1965. Also cases in France, Germany, Puerto Rico, South Africa, Spitsbergen (Arctic Ocean,) Australia and the Soviet Union.

There are rumoured to have been many more. It is also known that in the period of 1969 -71 a secret Government committee made a deal with an Alien intelligence known to originate from Zeta Reticuli, more commonly called the GREYS, due to their grey skin

colour, caused theoretically by the lack of iron in their blood.

This deal took place at Wright Patterson Airforce Base with members of MJ12 present. An agreement was reached by both sides and a contract was drawn up where the Greys give technology in return for their non-interference in the ever growing numbers of abductions and cattle mutilations in addition the Government would furnish hidden secret facilities from which the Greys could work from and conduct experiments on abductees. One infamous location is Dulce, New Mexico, which also happens to have the largest cases of cattle mutilations in the US and it is also a hotspot for abductions.

When John F Kennedy became US President it was believed by many groups that Kennedy disagreed with the activities and policies of the MJ12 committee due to their disregard to public safety, the contract, and that they were playing God, making decisions

and taking actions without his consent. Some felt that he was against the MJ12 / Government / Greys agreement and wanted all activities ceased and MJ12 closed down. MJ12 saw this as a threat and so with help from their right hand hench men, the CIA they had Kennedy assassinated in Texas in 1963.

With Kennedy out of the way MJ12 continued their activities but feared that future Presidents might take the same stance as JFK and so had a Black Government or Cabal set up.

The Cabal was made up of MJ12 committee members, Military top brass, politicians with aspirations for being President, executives, and heads of technology corporations who had contracts from the Government to study and develop alien technology. They then put their activities at a security rating much higher than top secret, so that even the President himself could not have clearance to know of their work. When Congress began to squash the budgets for the black operations the Cabal began to finance themselves through their friendly companies including the Rand corporation and other well known electronics

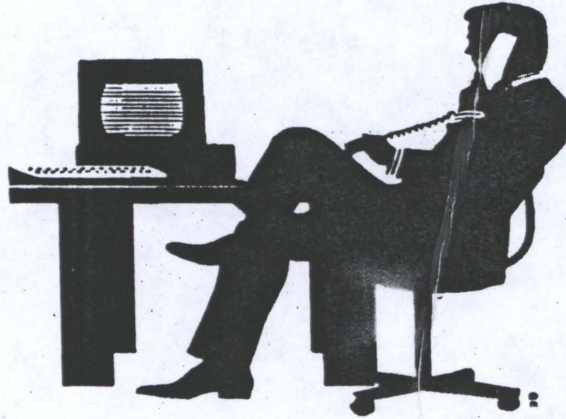

and aircraft firms who had access to developed technology thanks to the Cabal, add to that they also made extra finances through secret deals with Colombian Drugs cartels, so taking a major slice of the profits from drugs deals and selling many drugs captured by police and customs and excise officials.

These activities continued on through the eighties which was a period when ex government employees came forward, defying threats from their employers to reveal nothing or ELSE, about activities of the government. One of these men was Robert Lazar who was reported to have worked on studying a UFO at the infamous Area 51 location at Groom Lake facility - AKA Dreamland in the Nevada Desert. A Facility which the Government still to deny exists though if you are caught within a ten mile radius, which is still growing you will be sentenced to up to a year in jail and a fine of \$5,000.

Though the US government admit to the existence of the Groom Lake facility, but deny any secretive activity involving outside technologies.

Another revelation was that authorisation was given to the National Security Agency to monitor all telephone and fax communications around,

entering or leaving the US. It is also shocking to know that our GCHQ have an agreement with the NSA to monitor all communications via phone,

fax modem and cellular phone in the UK from a USAF NSA listening post facility in North Yorkshire which employs nearly two thousand NSA personnel, also the NSA are known to keep tabs on people whom they feel are a threat to their interests *including members of UFO groups, ex Government employees. They also employ tactics wherein they infiltrate organisations and groups to learn information and to do damage from within.*

Another fact of the MJ12 activities is that since 1982 the US Government have been hosts for up to three "GUESTS" known as EB1, EB2 & EB3.

Since the contract made in 1969-71, the Greys have escalated their number of abductions and have not been open to the government about their activities. Word also has it that they are no longer sharing their technology

or information with their hosts., they also refuse to share any of their findings and scientific data which they collect from each abduction even though when they conduct their experiments at the secretly supplied facilities US government scientist are present.

It is known that for some time the greys have been working on the creation of a perfect human / alien hybrid. Ones which are created are studied and raised at the underground bases at Dulce, New Mexico and elsewhere.

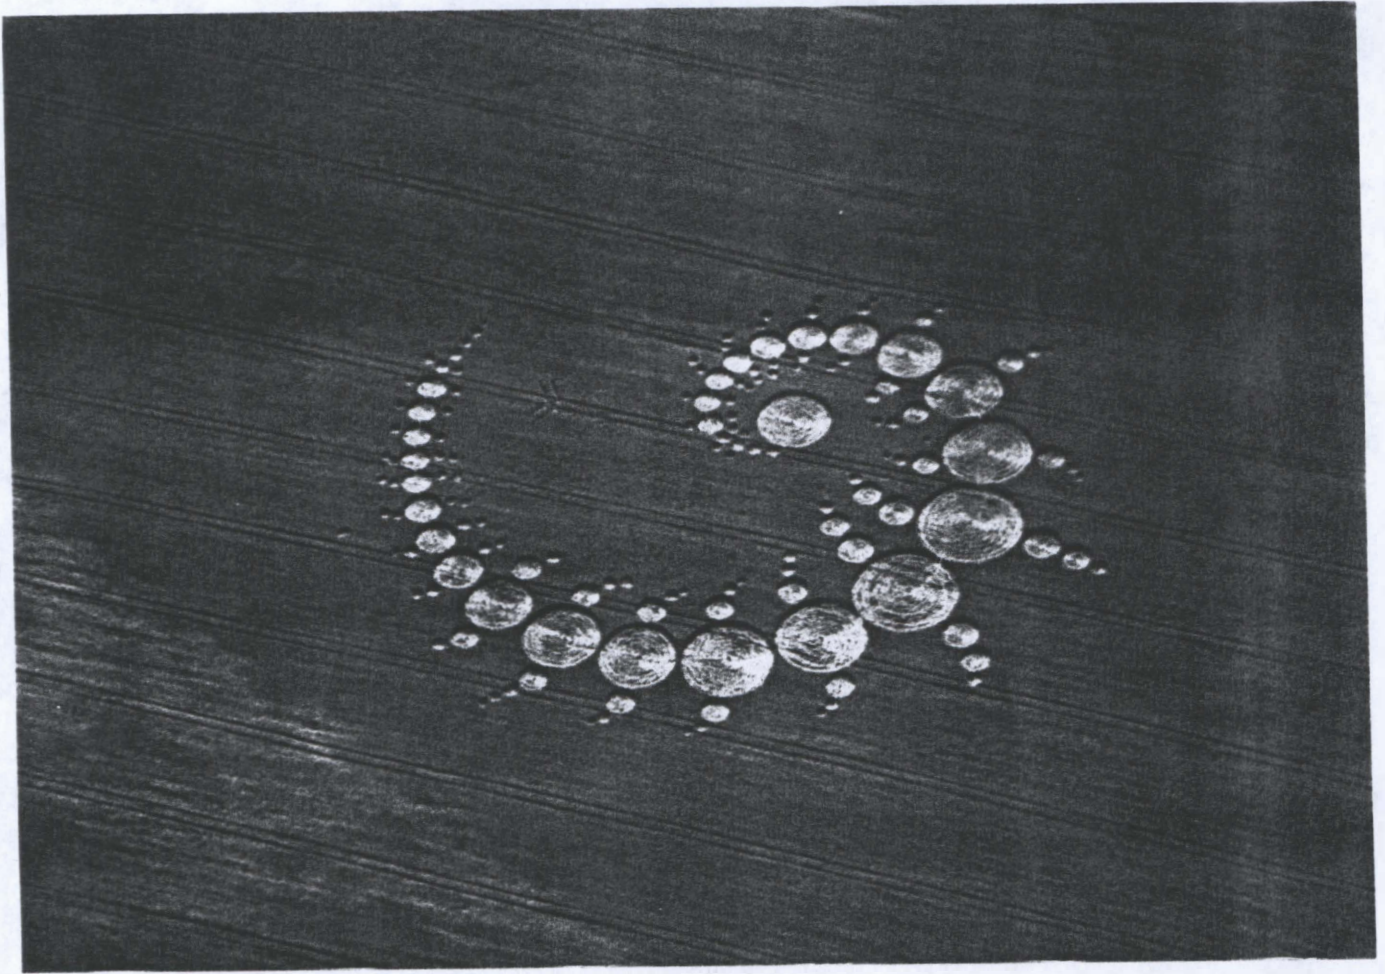

One little known fact about this communication breakdown was that sometime in the late 60s there was a situation at Dulce when the government GUESTS killed a number of base workers and which escalated into a siege, which later led to the government creating counter-measures in case such an incident happened again.

To this date there is so much about MJ12 and the Cabals activities which we are still not aware of including a rumour that their operations and retrieval units have unlimited jurisdiction in the UK, even to a point that the UK government are unaware of their activities. There has never been a time when the truth could ever be so dangerous. In the words of deep throat "TRUST NO-ONE".

## FT 'VULCAN BOMBER' NEAR HASTINGS 2-10-95

The following report is typical of the information coming to us as a result of our recent FT booklet advertising campaign. The witness (a Managing Director), made a meticulous study of the FT as it passed overhead.

We are receiving an increasing number of reports referring to a 'grey' or 'metallic grey' FT with a green light at the rear (see Mr Tom Culleton's report in our last month's issue of the OVNI).

*The report from Mr Ian Broadmore states:-*

I was in my car on the A21 at 6am on the 2nd October 1995, travelling from Hastings to London. I had left home at 5.40am and headed northbound up the A21. It was a beautifully crisp morning and quite bright, due to the bright moonlight, a full moon or near full moon.

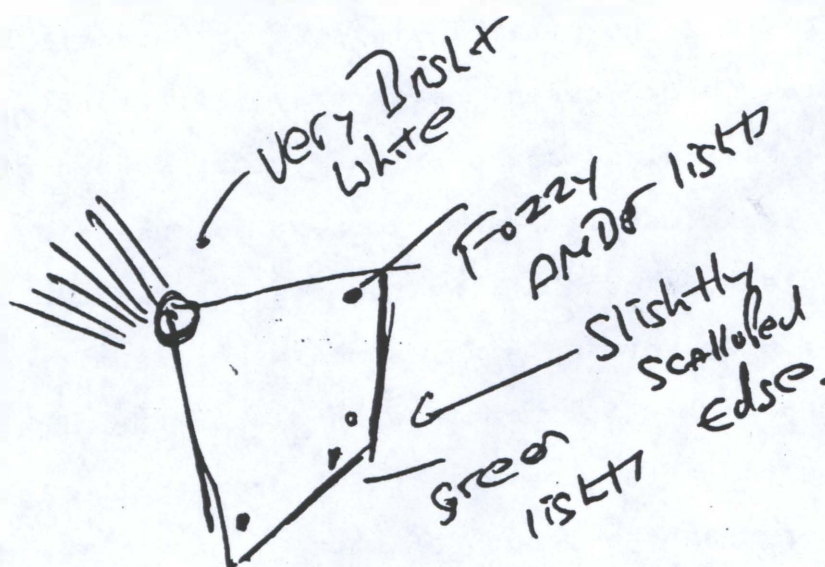

As I was near Robertsbridge (East Sussex), I noticed a very, very bright white light over to my right, which appeared to be travelling parallel with me. As I reached the mini-roundabout at Robertsbridge, **the object deliberately turned in my direction**. As it got closer, I could not believe what I was seeing (how many times have we heard that:Ed.).

It was a large triangular object, about twice the size of a Vulcan bomber, appeared to be metallic grey and at about the height of 3/4 houses. It flew directly over the car, very slowly, almost like a balloon drifts and then went out of sight over some houses. It had a bright white light at the front, amber 'fuzzy' lights at the points and a green light at the rear. It appeared from the ENE and moved off in a Westerly direction.

I must have observed it for 5 to 10 minutes. It seemed *surreal, almost dream-like*. I wound down the window and there seemed an unnatural silence!

It has had a profound effect upon me and I was convinced that I would see it again. Following this sighting, I had two other sightings, one in Hastings and one in Colchester of different objects.

Mr Broadmore's sketch is shown below.

## AMERICAN FT REPORTS FROM SAN DIEGO

By Eic Herr

Saturday, April 30th, 1994, at 10:04 pm, duration about 45 seconds.

Megan Ralphs (14 years old), her brother (15), and two of her girlfriends were in <sup>the</sup> backyard of her home in Alpine, a mountain suburb of San Diego; three lights at the apexes of an approximate equilateral triangle; two white, one red, but different opinions on this point; the object was larger than 200 in angular width; it emitted a powerful but very low-pitched hum; it obscured stars as it passed overhead; steady and continuous movement, no maneuvers; the girl who first saw the object had been lying on a trampoline with her eyes closed and was hoping to be taken away by a UFO. When she opened her eyes, the object was directly overhead. The family dog was also staring at the object. Megan ran into the house and obtained a camera (because she had seen another unusual object in the sky some months before and wanted to be prepared if another became visible); She took five photographs of the object, all of which showed only blackness. This is to be expected, as the film was daylight color film of too low a speed to register any but the brightest lights at night.

Thursday, May 19th, 1994, from 8:51 through 9:16 pm; 998-2900

Group of four witnesses: Robin Leland, of Apartment 425, 5710 Baltimore Drive, La Mesa, CA 91942; hospital administrator; Mardell Brandt, her mother; Mr. and Mrs. Chuck Jensen, neighbors. (Art Brandt, father in Palm Springs 771-3600); Ms. Leland saw a bright, cigar-shaped cloud in the southwest; out of the cloud came an object of immense size; it was an equilateral triangle with each of its three sides lighted by five to seven bright red lights; they were pulsing, sometimes intermittently and sometimes sequentially; these lights were extinguished when the object was over Lake Murray, but reappeared after the object had crossed the lake; the object was described as larger than the length of three football fields, and in fact larger than Lake Murray itself; no sound; low; below the few clouds (which were at about 900 feet above ground level);

## OOP'S, LET'S GET OUR FACTS RIGHT!

We have the highest respect for the 'Quest' organisation and for their 'UFO Magazine' which is one of the best buys on the news stand these days (there are so many 'glossys' jumping on the 'X Files' bandwagon). However, your editor had to draw their attention to a statement made in the July/August edition of UFO magazine.

An article on the 'Mantell Case' (*U.S. fighter crashed after chasing a UFO in 1947*), appeared in the magazine disclosing new facts about the incident. Tony Dodd had discovered a new witness at the crash scene, a Captain James 'Jim' Duesler of the American Air Force, now long retired and living in England. He disclosed that the P51 Mustang fighter had crashed almost intact, in the middle of woods, leaving only a few signs of broken trees etc. A photograph of Captain Duesler accompanied the article. (see below)

**Captain James 'Jim' F. Duesler pictured alongside his P-51 fighter in 1948**

Not So! said your editor, that is not a P51 Mustang fighter in the photograph, but a P40 Warhawk, vintage 1940/43 and it is in the colours of the American *Flying Tiger* squadron (a volunteer group fighting the Japanese in China). The photograph is unlikely to have been taken in 1948 as there were no longer any P40's in service at that time.

A reply from Tony Dodd stated "I have as a result of your letter been in touch with Captain Duesler. He confirmed that the aircraft in the photograph was in fact taken many years before the Mantell incident, when Jim Duesler was serving in China," "This was an unfortunate error on my part and I am very grateful to you for bringing this to my notice."

*(That's what comes from spending your childhood ducking into an air raid shelter when you spotted a Me.109, instead of a Spitfire! You soon learnt to tell one aircraft from another.Ed.)*

N.B. *Timothy Good has kindly sent us a photocopy of the Mantell crashed P51 aircraft, together with a photocopied newspaper report.. As Tony Dodd explained in his article, it landed almost intact after crashing from 15,000ft! The Fuselage is virtually in one piece and the wings are close by! Yes that was very unusual!*

## TALE ENDERS

**WHAT'S HAPPENING OUT IN THE COLD?** Victor Kean (Berlin) informs us that there is much excitement on the internet over the US Government's restriction order on maps of Antarctica which are normally on sale to the public. No reason given! These maps are apparently produced by satellite scanning.

**BBC TV** are about to launch a new series of programmes on the paranormal. We were contacted a few weeks ago to assist with their search for unusual material and as a result, we supplied the BBC TV with various photographs, sketches and video's. A batch of our colour drawings are being used in the title sequence for 'Out Of This World', with Carol Vorderman and Chris Choi (Tues 23 July BBC1). We understand that the programme on **August 6** will feature more of our work.

**GRANADA TV** are not to be outdone and have also been in touch with us for UFO material. Their programme will be produced on Granada TV in a few weeks time and they have promised us a video copy of the programme.

**THE ALIEN AUTOPSY FILM** is 99.9% genuine, according to Bob Shell, although Santilli's story of how he obtained it is not?

**INTERNATIONAL UFO CONFERENCE IN GOTHENBURG** (Sweden) will feature Jenny Randles, Paul Fuller, Nick Pope, Kent Jeffery, Per Andersen, Ole Jonny Braenne. To reserve a seat for the 27th October 96, you will need to pay SEK 435 to UFO Swedens postal giro 505060-4. If you want more information write to Andreas Ohlsson, P.O.Box 175, S-733 23 SALA, Sweden (*take your fur boots*).

**TERRY WALTERS (THE PSYCHIC)**, revealed to us a few weeks ago, (after returning from Egypt with the Egyptologist, Robert Bauval), that a door has been recently been uncovered in the **Sphinx**. There is a great deal of controversy going on at present. We understand that the Egyptologists want to open it, but the Egyptian official sources are saying, 'not likely, it's our business!' *We await events with interest.*

**INTERESTED IN A SKYWATCH?** We are considering taking part in an International Skywatch Weekend 17-18 August. The site will probably be the village of Bretby near Burton-on-Trent, the scene of much FT activity. The watch will probably be 10.30pm Saturday, to 2am Sunday morning. Anyone interested, please give Omar Fowler a ring a.s.a.p.

**STONEHENGE AND THE FORGOTTEN ENERGY**, an article by J.L.Whitear (Guildford) has been held over to the next issue of OVNI. Don't miss it, it will make you think!

**HOLIDAYS ARE WITH US THIS MONTH**, as a result, there will be **no group meeting** at the British Legion.

**6TH ANNUAL INTERNATIONAL UFO CONGRESS CONVENTION:** 24 Jan. 97 at the Gold River Resort, on the banks of the Colorado River USA. Details are with your editor.

**LATEST LOCAL CROP CIRCLE:** A 250ft dia ring with a large circle inside with a nine pointed star. Situated between South Wigston & Countersthorpe, Leics. *Source: Clare Upton.*
